

Dear Mexican Database Subscriber:

Due to the detariffing of the AT&T FCC #10 tariff, Tele-Tech Services will no longer be able to provide the Mexican V&H information in its current format. Effective with the August 20, 2001, update, the format of the V&H information will change. The new format will include NIR codes that will become effective November 10, 2001. NIR codes are the equivalent of an area code. They are regional identification numbers.

The new format will not be as detailed as the current Mexican V&H product. I have attached a copy of the new Record Layouts for your convenience.

Please feel free to contact me if you have any questions or comments.

Sincerely,

Elaine Kronski
